

Braces Made Easy

Course Description

Don't let brackets and wires intimidate you! If you have considered providing braces treatment solutions to your practice, then our course will help make the transition EASY! This interactive course will prepare you to apply basic bracket and wire procedures. Using our typodonts during the hands-on breakout allows for realistic patient engagement, repetition, and the establishment of consistency. Learn how orthobrain treatment plans provide step-by-step guidance on caring for patients with braces. orthobrain's team of doctors and clinicians will share practical advice to maximize your time and efficiencies when providing orthodontic patient care.

Learning Objectives

- Understand and execute the orthobrain braces system workflow and proven process
- Review instruments and products needed for patient care
- Complete the steps involved in the delivery of the orthobrain braces system bonding appointment
- Apply methods in managing space during orthodontic treatment
- Initiate finishing techniques with the guidance and recommendations of our orthodontic specialist
- Initiate removal of braces, delivery of the perfect smile, and implement retention protocols

Dr. Owen practices at My Family Dentistry in Tennessee. He is passionate about providing the best comprehensive dental care to his patients. After he attended dental school in California, where he earned multiple awards, he completed training to provide quality clear aligner therapy to his patients.

Dee Holloman is a Senior Clinical Education Developer for orthobrain. With over 22 years of experience in dental care, she played a significant role in pioneering their services. She is an accomplished speaker and educator for applying braces. Dee also has established herself as a specialist for clear aligner therapy.
