OBJECTIVES:

- Understand why patients and the GP practice benefit from performing orthodontics
- Learn about the evidence-based conclusion that GPs can provide excellent orthodontic outcomes
- Discover how a collaborative system allows GPs to deliver excellent care tomorrow with behind-the-scenes expert oversight
- Learn the two pearls you can use to get great orthodontic outcomes at a profit along with good esthetics

BONUS:

- Learn the two words to use on the phone that are guaranteed to help you bring more great new patients to your practice
- See how orthodontics meets the Trial Smile – orthodontically assisted restorative treatment planning now in one place

MEET DAN GERMAN, DDS

Thirty years ago, Dr. German started an orthodontic practice that became one of the largest privately held practices in the country. In 2016, Dr. German used his passion for transforming the delivery of dental care to found orthobrain. Dr. German is well known throughout the dental world for educating professionals on how to correct the entire spectrum of malocclusions, all while rendering exceptional service. Dr. German is devoted to solving dental problems using new and better solutions. He helped develop systems for an easy and precise way to place braces without any lab work.

ADA CERP® | Continuing Education
Recognition Program

The Center at Dental Ceramics is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP
