

orthobrain®

ORTHODONTICS SIMPLIFIED 2.0

Hands-On Braces & Aligners

SEP 19-20

8:30AM - 4:30PM EST

ORTHOBRAIN HQ

3404 Brecksville Rd,
Richfield, OH 44286

Both Days: \$500 includes Doctor
Braces Only: \$300 includes Doctor
Aligners Only: \$300 includes Doctor
Add Team Members: \$200
CE Credits: 6 per day

Overview

In this two-day course for braces and aligners, participants will learn how to use a collaborative system that delivers predictable orthodontic treatment, maximizes patient care, and increases restorative production. Emphasis will be placed on creating a "Total Solution" with hands-on learning to help you deliver orthodontics with confidence.

Scan to Register

Course Description

Don't let brackets and wires intimidate you! If you have considered providing braces treatment in your practice, then our course will make the transition EASY! This interactive course will prepare you to apply basic bracket and wire procedures. Using typodonts during the hands-on breakout allows for realistic patient engagement, repetition, and the establishment of consistency.

Learning Objectives

- Understand and execute a collaborative braces system workflow and proven process
- Complete the steps involved in the delivery of a ready-to-bond braces system bonding appointment
- Apply methods in managing space during orthodontic treatment
- Initiate finishing techniques with the guidance and recommendations of a virtual orthodontist and orthodontic team
- Initiate removal of braces, delivery of the perfect smile and implement retention protocols
- Discover increased profitability from delivering predictable orthodontic treatment with proven systems.

Our Educator

Dr. Craig Hewitt, DDS

Dr. Craig Hewitt is a 2000 graduate of the Ohio State University college of Dentistry. He completed his AEGD residency with the US Navy in 2001. In 2004, he started his family practice and has been offering orthodontics (aligners and braces) for the past 18 years. He is a member of the Dayton Dental Society and heavily involved in the community as a keynote speaker for Veteran's Day ceremonies and Scholar Recognition ceremonies at local high schools.

4:00-4:30pm	Closing
4:30-6:00pm	Reception at orthobrain®

Course Description

Your teams have committed to confidently deliver aligners at your practices. Each team member plays a vital role to effectively increase revenue from orthodontics. Join orthobrain® for a day of fun as we celebrate your achievements and participate in role-specific breakout sessions to help your teams solidify your skills and take orthodontics to the next level!

Learning Objectives

- Be able to identify good candidates for aligner treatment and educate them on the benefits of healthy occlusion
- Learn tips and tricks to create good patient records to optimize aligner treatment planning
- Learn the doctor, clinical, administrative, hygiene, and virtual orthodontic team roles in delivering aligner treatment
- Learn the fundamentals of zero cost marketing
- Learn the ins and outs of insurance and patient financing
- Get your team in sync to deliver efficient and effective aligner treatment

Breakout Sessions For Your Team!

Clinical Objectives

- Optimizing your digital workflow
- Creating diagnostically useful records
- Why, how, and where to place attachments and perform IPR
- Easy placement and use of bite-correcting elastics
- Scripting when performing these procedures
- Monitoring appointments for efficiency

Dee Holloman, ODA
Senior Clinical
Education Developer

Dee Holloman, Senior Clinical Education Developer for orthobrain®. With over 22 years of experience in dental care, she played a significant role in pioneering orthobrain's services. She is an accomplished speaker and educator for applying braces and aligners. Over the years, Dee has established herself as a specialist for clear aligner therapy and intraoral scanners. Dee's attendance and speaking roles at trade shows and conferences keeps her an expert in the field of orthodontic patient care.

Administrative Objectives

- Becoming comfortable discussing orthodontics
- Overcoming the objection of perceived high fees
- Understanding orthodontic insurance
- Scripting for orthodontic and fee presentations with words that put the patient at ease

Barb Herzog-Blaine
Lead & Practice
Success Manager

Barb has been involved in the orthodontic/dental community for 40 years in her varied roles as practice manager, treatment coordinator, financial coordinator and practice management consultant with hands-on-experience. She has assisted offices with effective communication, team development, case presentation and fee presentations. Barb has lectured at regional and national meetings. She is certified in Dental Practice Management through the Dental Assisting National Board.

Hygiene Objectives

- Understanding the need versus the want for orthodontic treatment
- Integrating scanners for patient education and increasing treatment opportunities

Zac Ivey
Implementation
Specialist

Zac Ivey has over 8 years of dental experience, working as an assistant as well as in administrative and office management. He is passionate about quality patient care and making patients feel at ease. The business of dentistry and presenting orthodontic treatment plans is his expertise. Having worked alongside high-producing practices, Zac can assist dental teams with effective workflows including the handoff from the hygiene room to the doctor and treatment coordinator.
