

 VIRTUAL LEARNING COURSE

ORTHODONTICS SIMPLIFIED - LEVEL 1:

Predictable & Profitable Orthodontic Solutions

COURSE DESCRIPTION:

In this course, doctors will learn the importance of delivering orthodontics in their practice. Participants will learn how to use a collaborative system that delivers predictable orthodontic treatment, maximizes patient care, and increases restorative production. Emphasis will be placed on creating a "Total Solution" with practical information and resources that teams can use to start and grow aligner cases immediately. At the end of the course, participants will have the knowledge and confidence to start delivering orthodontics in their practice.

LEARNING OBJECTIVES:

- Discover how a virtual orthodontic team creates a collaborative system, allowing doctors to leverage their team to deliver excellent patient care.
- Discover increased profitability from delivering predictable orthodontic treatment with proven systems.
- Understand how orthodontic treatment can increase restorative production, practice growth and create raving fans.
- Learn how a "Total Solution," from case acquisition to treatment completion, gives the team confidence to start and grow aligner cases tomorrow.
